Indian Trail

A leader in the Northern Indiana Furniture industry. The door to Indian Trail Furniture was opened in 1994 by William and Phyllis Ann Troyer. Since then, we have only worked with the finest wood to design quality hardwood beds handcrafted to last for years to come. These are beds that will become family heirlooms for future generations.

We at Indian Trail Furniture build beds out of hardwood which is an open grained wood. Solid wood beds will expand and contract with humidity and temperature changes even after high quality finishes have been applied. Controlling humidity will minimize the minor cracking and movement. This is a natural part of the wood character. Humidity should be kept in the 35-40% range to minimize these effects. If out of these ranges, solid wood will expand and contract causing cracks, gaps and panel movement that add to its character and beauty. With proper care solid beds will provide a lifetime of enjoyment.

In every bed built by Indian Trail Furniture there is quality workmanship that assures many years of endurance. This workmanship can be found in the attention to details that make each bed unique and beautiful.

A high quality bolt system provides the strongest, most solid bed on the market. We at Indian Trail Furniture try other systems as well and we always come back to the high quality bolt system. We also use dovetail slat construction to add strength to each bed. There is nothing else like quality construction.

Notice of Product Changes

New for 2016

Matison, Kimbra beds, Platform with Bed Lift

Change Made

Only 2 price sheets: 1 Finished, 1 Unfinished

You'll find the column (HB w/ Choice FB) that means LF-1 through LF-10 Choice Foot Boards are all the same price.

When ordering a bed with a low foot board, you MUST have a foot board Model Number with Description on your order.
